SUMMARY

Motivated and passion-driven Full Stack Web Developer with a Web Development Certificate from the University of Denver. Experience in both frontend and backend programs utilizing a combination of multiple programs and languages along with strong communication, collaboration, analytical skills, and problem-solving. Ability to design, build, and maintain websites from conception to production. Confident working in a fast-paced and diverse team environment developing solutions and exceeding expectations.

TECHNICAL SKILLS

Languages: JavaScript, jQuery, Node.js, Express, MySQL, MongoDB, React, HTML, CSS

Applications: github links?

PROJECTS

Giftr | github.com/jessicaano92/registry | giftr-registry.herokuapp.com

- **Summary:** Registry website built for users wanting to make a gift list for themselves, family, or friends whether it be for a birthday, wedding, or holiday. Stores user's name and specific gift list information in the database along with the capability of purchasing gifts through the links provided.
- **Role:** Both front and backend development, debugging, and styling.
- **Tools:** React, MERN, JSX, Mongoose, Axios, Moment, Material UI, Bootstrap, CSS

Couch Surfers | github.com/jessicaano92/couchSurfers | dry-scrubland-38194.herokuapp.com

- **Summary:** Blog website built for users to signup and login to share experiences and/or information about indoor and outdoor activities, cities, and restaurants with the public. Stores the user's login information in the database and allows the user to edit, delete, or make a new post all the while seeing other user's posts as well.
- **Role:** Built the models for the database using Sequelize and MySQL, user authentication, and styling
- **Tools:** JavaScript, Express, Node.js, MySQL, Sequelize, Handlebars, Passport, Particles.js, CSS

Meal Matcher | github.com/jessicaano92/meal_matcher_javascript_ajax | jessicaano92.github.io/meal_matcher_javascript_ajax

- **Summary:** Recipe website built for users to find multiple recipes regarding whatever ingredient is searched. The website has the ability to generate a random recipe along with storing any favorites in a recipe book and later deleting if desired.
- **Role:** HTML, Bootstrap, CSS
- **Tools:** JavaScript, HTML, Bootstrap, CSS, Materialize

EXPERIENCE
